## DISCUSSION

The petitioner, pursuant to Fair Hearing Rule No.

1000.4K, requests that the Board reopen and reconsider its

Order in this matter dated April 9, 2010, affirming the

Department's decision that the petitioner financially

exploited a vulnerable adult. Following the filing of the

petitioner's motion, a telephone status conference was held

on May 18, 2010. At that time the petitioner represented

that he had additional documents that would "prove" his

"innocence". The hearing officer allowed the petitioner two

weeks to submit copies of those documents. On June 1, 2010,

the Board received a packet of documents from the petitioner.

All the arguments raised by the petitioner at this time relating to the factual and legal issues regarding his exploitation of a vulnerable adult were previously raised by the petitioner and considered by the Board in its previous Order. None of the documents recently submitted by the petitioner refutes or calls into question any of the Board's findings of fact. The petitioner's procedural challenges to

the hearing process, to the extent they are comprehensible, are without merit.

## ORDER

Inasmuch as the petitioner has not established good cause for the Board to reopen and reconsider this matter, his request is denied. Fair Hearing Rule No. 1000.4K.
